add the extra to the ordinary

Monkey Business has been adding the extra to the ordinary since 1994. We shine a light on the little things that make up your day so you can see them from a new perspective. It is our aim to bring beauty and originality to the home & office and to help organize surroundings with style.

Our products are expertly designed yet affordable. Practical yet humorous. The leading product designers of Israel, from talented youngsters to experienced professionals, all contribute to our wide ranging and eclectic mix of innovative design gifts.

This season we take our love of pasta even further, adding an innovative glass container for pasta storage.

We also enhance our fiesta tools with some earthy Mexican bowls and cactus spoons! Our icepacks get some very cool additions, with a special focus on babies and kids. While our line of deodorizers gets the Bull treatment.

We hope you enjoy using our products as much as we enjoy creating them.
