Marushin's CSR

Marushin is working on a "RED CUP CAMPAIGN".

飢餓から救う。
未来を救う。
WFP
国連世界食糧計画

What's RED CUP CAMPAIGN?

Part of the sales is donated to the United Nations World Food Programme. There are many young lives lost due to hunger and many children are still being forced to work so that they can eat instead of going to schools. This is a campaign to convey the situation to many people and deliver school meals to as many children as possible.

This activity contributes to the SDGs "ZERO HUNGER" and other items on the right.

**RECYCLED
POLYESTER**

Recycled polyester is a polyester fiber made from collected plastic bottle. The use of recycled polyester material can reduce both the amount of petroleum used and the amount of waste in used plastic bottle. Recently, "recycled polyester fiber products" have been attracting attention as interest in the environment has increased.
